

## THE OLD MALT HOUSE CHILDREN AND YOUNG ADULTS DENTAL PLAN

Our aim is to provide high quality care and treatment in a relaxed, comfortable and safe environment. We are committed to continuing education and keeping abreast of advances in modern dentistry. Tooth decay is one of the most common preventable diseases and to prevent it requires a commitment of time and effort. With the correct habits, there is no reason why your child should not have healthy teeth for life. Research shows that preventive dentistry delivered on a regular basis greatly reduces the risk of dental disease in children and provides a platform for a lifetime of improved oral health.

Our children's plan focuses on the delivery of preventive dentistry on a regular basis, encouraging good diet and oral health habits in your child's formative years and thereby minimising the need for fillings and extractions.

When you enrol your child onto our children's plan, you will have the peace of mind that all your child's routine and preventive dental care will be covered by convenient monthly payments. Our plan also provides worldwide Supplementary Insurance for dental emergencies or dental injuries whilst at home or abroad (see overleaf) – essential cover for the rough and tumble of childhood.
